Religion - Chapter 13, pgs. 163 - 173 Test- Fri. Jan. 15.
Math - Chapter 6. Multiply by two digits.
Science- Ways heat can be produced. Identify heat as a form of energy.

Dear Parent,
Happy New Year!

We will be studying the other three regions in social studies. They are:

Midwest	chapter 8
Southeast	chapter 10
West	chapter 12

We will be learning how the Federal Government operates while learning the other regions. The unit on the Federal government has six lessons. These lessons are very detailed.

I need to make sure the children have learned all the states and capitals. We will then learn about Economics.

I have great confidence in the children! We can do this. I know we will be pushing the social studies hard, however, the children will have learned what they need when entering fifth grade.

I feel we are keeping up in the other content subjects.

Please, if you have any questions contact me.

We need to go outside at least ten minutes every day. Please, make sure the children have mittens or gloves, hats, scarves, and a heavy coat. I will leave boots up to you. I feel the children are safer outside in the winter when wearing boots.

Have a great weekend!

Respectfully,
Mrs. Focht
