

2nd Grade NEWS!

Week: March 8 - 12

*Weekly Notes

This week in 2nd Grade:

We will be starting our unit on fractions in morning math. We will be finishing up regrouping with subtraction by Friday with a test next week. Everyone is doing a wonderful job with borrowing but many students still need to keep practicing their subtraction facts. Keep working!

The children are excited about starting capitals in cursive this week. After a little bit more practice, we will try a spelling test in cursive.

Our reading and writing this week will focus on the workshop that we are implementing into our curriculum. We will be working on interesting words found in our reading. We will then be using these words in our writing. Together, we have set up a classroom library that the children are able to take out additional books for reading. The 2nd graders are learning about the library and how to choose the right books for them. We are making progress. Our Nightly Reading program will remain the same for now.

The 2nd graders will join the 8th graders this week to work on a Lenten Prayer Journal. With both grades preparing for the sacraments, we thought it would be nice for these two classes to work together.

Don't forget our big night on Saturday. I look forward to seeing you at the Auction. Thank you to Rebecca and Jill for putting together our classroom basket. Thank you to all of you who donated merchandise or money to help complete the basket. It is very much appreciated!

K. Applin

Monday:

Spelling packets
Review sheet for science test on Tuesday
(please review, sign and return on Tues.)
Reading Journals due

Tuesday:

2nd / 8th grade Lenten project
Science test /fossils and dinosaurs
Phys. Ed.
Library – Nightly Reading

Wednesday:

Music
Atrium

Thursday:

Computer
Art

Friday:

Spelling test
Dr. Yentz – Dental Presentation for 1st and
2nd graders
Mass 1:15
Great Kid folders (we'll try again!)
