

2nd Grade NEWS!

Week: June 1 - 4

*Weekly Notes

I will be using the 2nd graders work for grades so the Great Kid folders will not be coming home until Friday.

On Thursday, if all goes well, Mrs. Timmer will be here to teach the kids about math and science with bubbles. She has been doing this for the last couple of years and the 2nd graders really enjoy it. The weather has to be perfect so we will keep our fingers crossed.

Please make sure that all library books are returned. The children will keep reading this week with their seat sack book that they have chosen from our classroom library.

We will spend the week wrapping up units that we have been working on. We will be reviewing material that has been taught and just spend time enjoying each other before it is time to move on. I will truly miss this class. They have been wonderful to work with and I have loved spending this year with your children. You have great kids!

Parents, thank you for such a great year! You have been very supportive. I appreciate all your help and hard work to make this year a successful one.

Enjoy the week!

K. Applin

Monday:

No School

Tuesday:

Last spelling packet!! (Review list)

Music

Library books due

Wednesday:

Computer

Art

Atrium

Thursday:

If weather permits, the 2nd graders will be having bubble science outside with Mrs. Marilyn Timmer.
