

## May 17 – 21

**Literacy** – We will work on closing activities for both Ribsy and Shiloh. I'd like to show the movie Shiloh so the students can compare and contrast the movie with the book. Please see the attached permission form.

Our word study words will be review from the past two weeks.

We celebrated our published *Small Moments* stories and will now discuss Tall Tales and write one of our own.

I am going to review sentence structure, capitals and punctuation in grammar. After reading their small moments and their Michigan settlers' papers, I noticed how often periods and capitals were missed.

**Math** - While continuing our multiplication and division drills, we will also revisit addition and carrying...many mistakes were made in adding perimeters.

**Religion** – Chapter 25 focuses on the two creeds of our church.

**Science** – We will begin our final Science unit....light.

**Social Studies** – Our mock trial was incredible....the children did a wonderful job of researching and analyzing the information given. We will now begin learning about and discussing the economy of Michigan.

## **Rotating Schedule for May 17 – 21**

<b>Monday</b>	art
<b>Tuesday</b>	phys. ed.
<b>Wednesday</b>	music, library
<b>Thursday</b>	tech, atrium
<b>Friday</b>	spelling test, Religion test, art, Mass

I know the school year is winding down but we still have much to do! I seem to have quite a few papers that are being redone because of numerous mistakes. In many cases the children are just rushing through work and not rereading directions or thinking before writing. Please support your child's learning by encouraging good work and behavior. Thank you.
